*Westside High School is
full of diversity. We
invite you to take a
journey through our
colorful past as you
reminisce about the
2003 - 2004 school year.*

Take the Journey

Got Books?

Latreice Pettie shows that she enjoys reading by spending time in the Westside Library.

What's all the racket?

Kehiona Glover and Erika Balthrop make a racket during badminton.

Taking time out

Shameka Buckner, Brittanee Harris and Antoneik Green soak up the sun in the courtyard.

Learning hands on

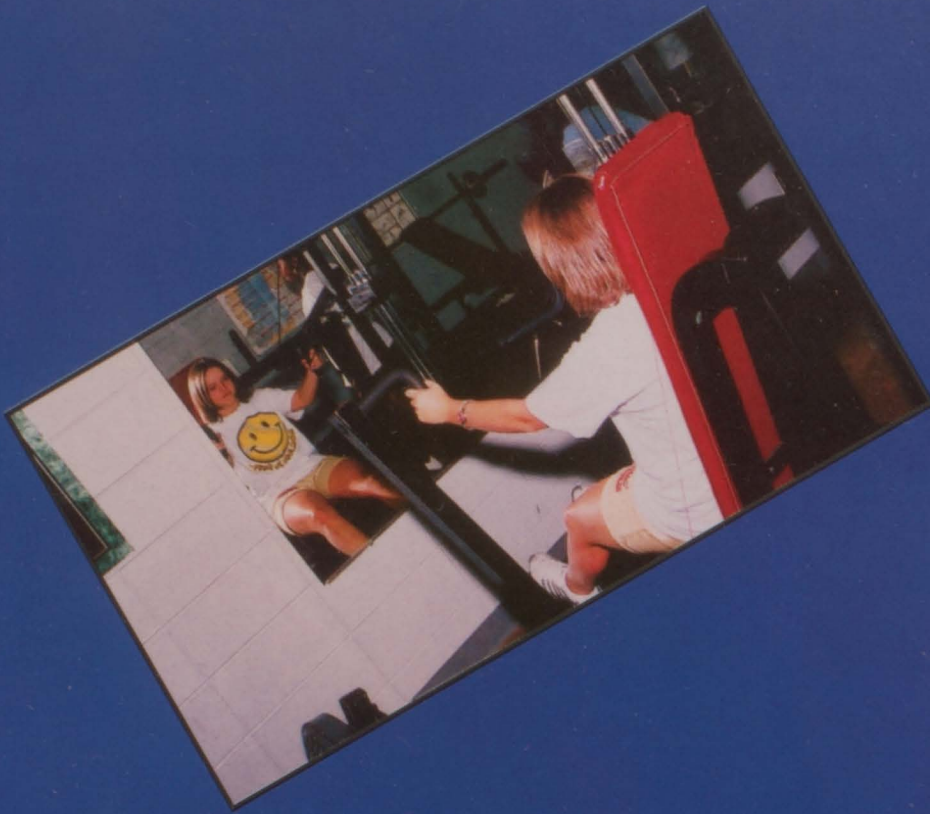

Danielle Comeau expresses her artistic abilities by sculpting a pot.

Alana Wuolukka works intently on her project for her art class.

Christy Fambro is all smiles while she stops at her locker on the way to class.

The 2003-2004 school year has been one of growth and change. Westside is becoming, "A high school that works", and the quote, "Failure is not an option" has become a school wide motto. The freshman class has formed smaller learning communities to raise grades and academic successes. This is also the third year of Westside's pre-engineering program which flourishes more each year. Join us as we take the journey through our colorful past.

into the important things in life
In order to make life as happy and fulfilling as possible.
A mother tries to teach her daughter
To be good, always helpful to other people
To be fair, always treating others equally
To have a positive attitude at all times
To always make things right when they are wrong
To know herself well to know what her talents are
To set goals for herself
To not be afraid of working too hard to reach her goals
A mother tries to teach her daughter
To have many interests to pursue
To laugh and have fun every day
To appreciate the beauty of nature
To enter into friendships with good people
To honor their friendships and always be a true friend
To appreciate the importance of the family
And to particularly respect and love our elder members
To use her intelligence at all times
To listen to her emotions
To adhere to her values.

To not be afraid to stick to her beliefs
To not follow the majority when the majority is wrong
To carefully plan a life for herself
To vigorously follow her chosen path
To enter into a relationship with someone worthy of herself
To love this person unconditionally with her body and mind
To share all that she has learned in life with this person.
If I have provided you with an insight into most of these things
Then I have succeeded as a mother
In what I hoped to accomplish in raising you
If many of these things slipped by
While we were all so busy
I have a feeling that you know them anyway
One thing I am sure of, though
I have taught you to be proud of the fact
That you are a woman equal to all men and
I have loved you every second of your life
I have supported you at all times
And as a mother, as a person, and as a friend
I will always continue to cherish and love
Everything about you My beautiful daughter. Love Mom

When you were born I was determined to do everything right. I prepared, I read, I planned I consulted and I worried. At first I stood in front of you to protect you, then beside you to watch you grow and now my place is behind you. With this next chapter I won't be there for every turn but my prayers will be. I'm supposed to have great wisdom to pass on but I only have one piece of great advice and it's not mine but your Great Grandfather's. Plant your feet, square your shoulders and do what you have to do. I've watched you grow into an amazing young woman. I know you will be just fine. Love mom

Best Friends Forever
By Quetta

Although it's quite a statement
Well, it happens to be true
The best friend I have ever had
I'm glad to say, is you.

You're there If I should need you
And you never turn away
I know I can depend on you
At any time of day.

We've had our ups and downs
As nearly everybody does
But problems never last long
With Special friends like us.

Some people have so many friends
With whom they spend their time
But no-one has a best friend
Who's as wonderful as mine.

So thanks for always being there
Your friendship's strong and true
And I just want to let you know
I'm always there for you!

The time that we have been together has been nothing but wonderful for the most part. I have really enjoyed being with you, and want to be with you for the rest of my life. The love that I have for you can't and will not be replaced by anyone or anything. The more time that I spend with you, the more I want to be with you. Once we met each other, I knew you were the one that I wanted to be with forever, and with love on our side, no one can tear us apart. We have grown so close so fast, and we will keep growing. You have made such an impact on my life, that it is impossible to not see you in it. Just so you know...I wake up every morning anxious to see you. "I love you.."

Tonya,

You're such a special person to us and blessing from above. Tonya you have so many wonderful qualities and the best of all is the loving spirit you always share. Your warmth and goodness and caring brings the love and joy to those who love you. Most of all to our family. Tonya it's a blessing to have a wonderful daughter like you, and you are loved and appreciated more than words can say. We are very proud of the young lady you have become. Special will never describe the way we feel for you, and the joy that you have instilled in our hearts. This may sound a little sentimental but you are everything a parent ever hope a daughter would be. Thank you for all the hugs, fun and laughter you have given us over the years

Love,

Daddy and Mama

My big bad sweet heart!

You are a very unique person, which I really do not understand at times, and has an attitude that could take on King Kong himself, I might add. You stand 5'2, talks a lot of junk, and still has the time to care for me. That is why I have chosen to have you as a long life friend and girlfriend. And I hope to see you walk across the stage with your head held high. Congratulations!

Love Always,

Quinn

CONGRATULATIONS

Twelve years of school have come and gone, now two of my babies will soon be on their own. We've faced many of life's challenges together, good and bad, only God and us know of all the times we've had, but through them all we've only become stronger, now I'm wishing the time we have left together could be much longer.

But I know that God has an awesome plan for your lives, all you ladies have to do is trust him, obey him, and continue to strive.

Proud isn't a big or strong enough word for me to express the joy in my heart.

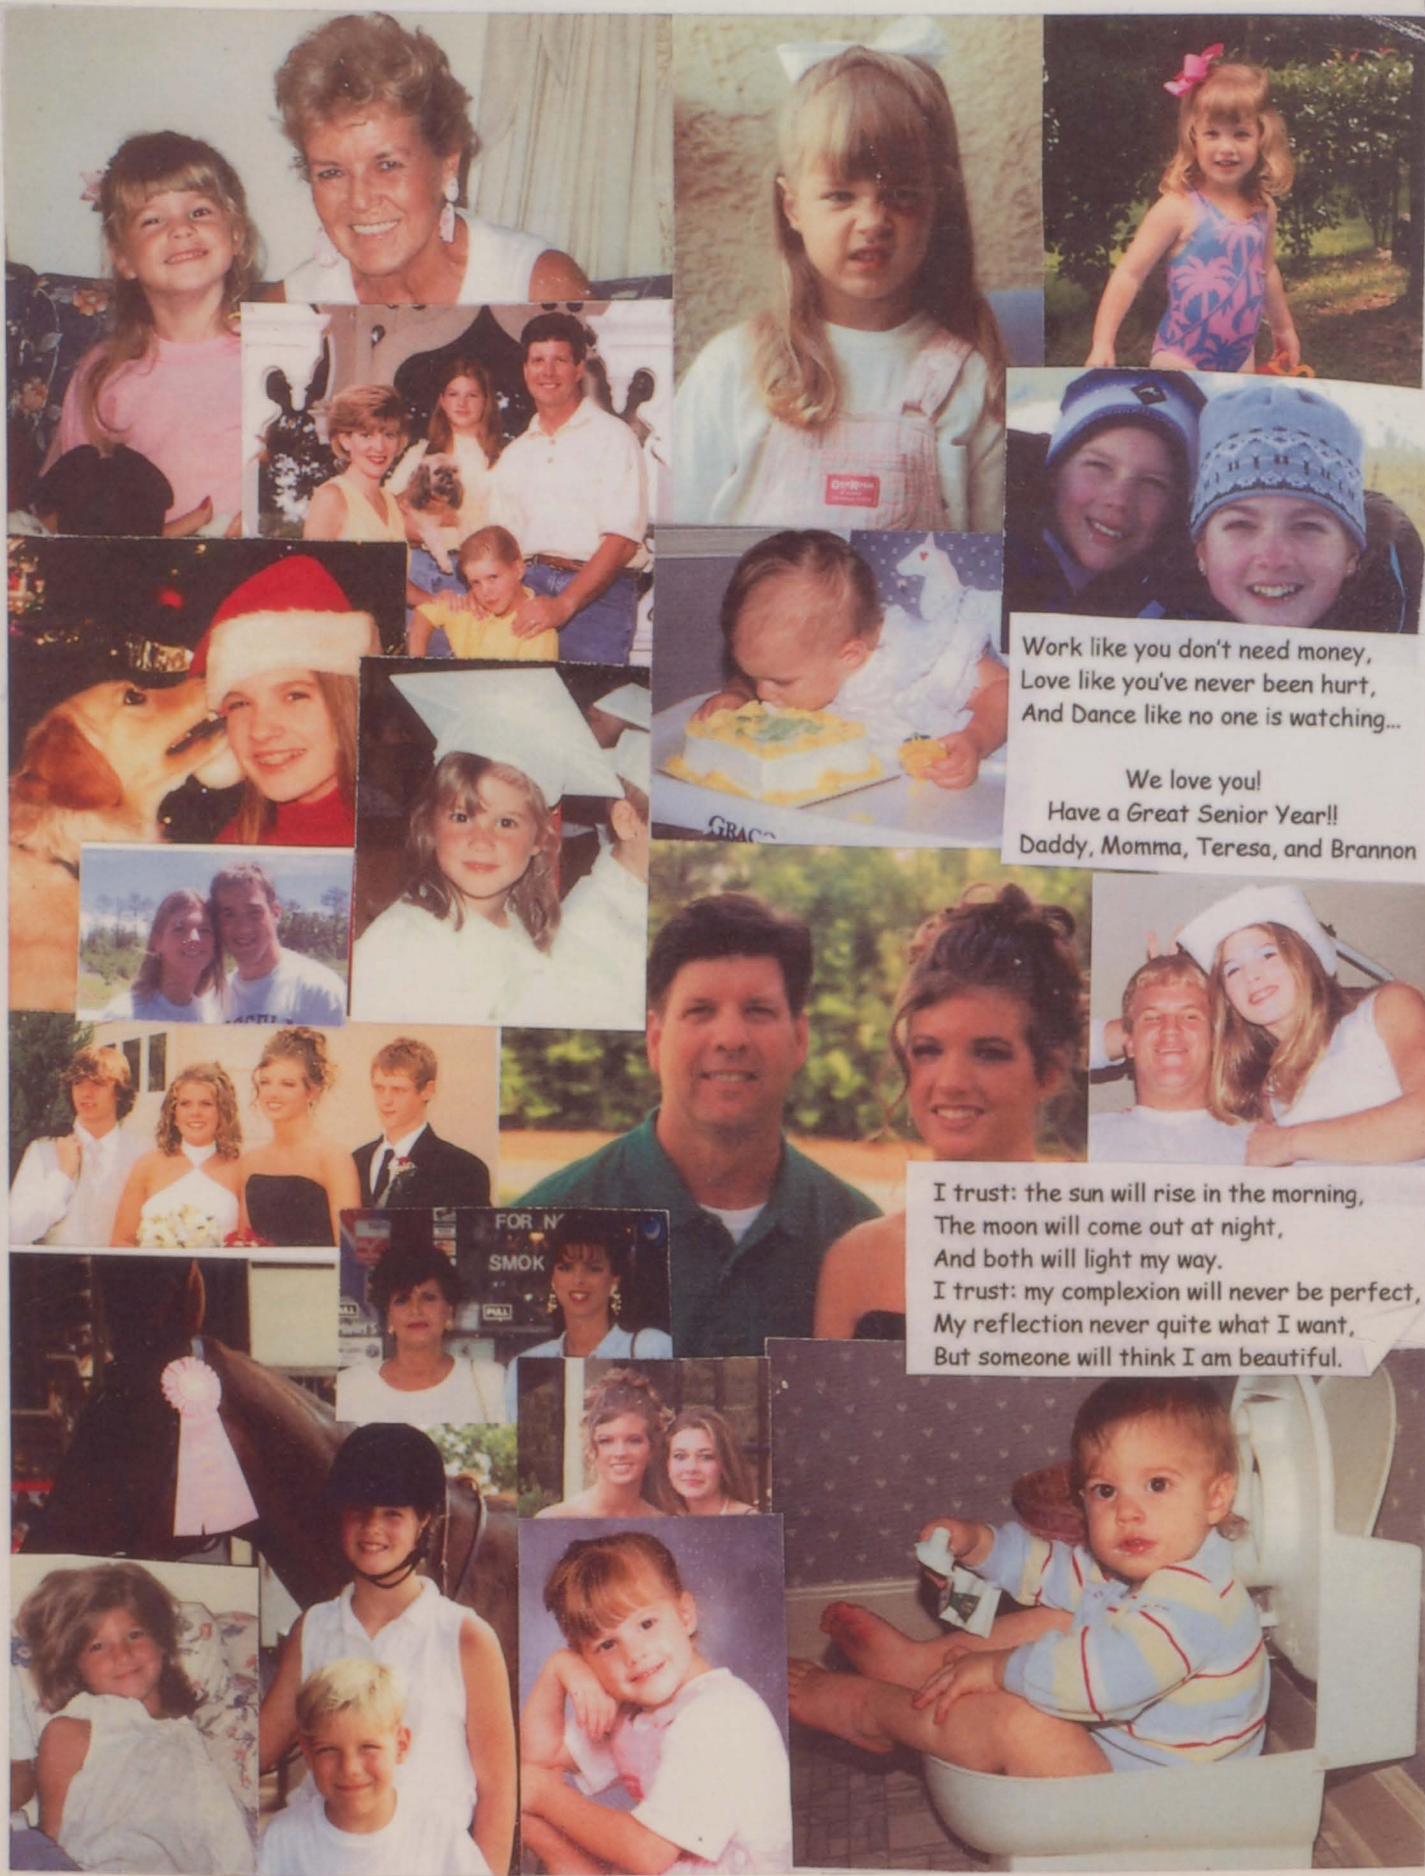

I knew this day would some day come that we would have to part.

I will miss you ladies more than you will know, I trust you, I love you, but I have to let you go.

Blessings unto you both

The moon will come out at night,
And both will light my way.
I trust: my complexion will never be perfect,
My reflection never quite what I want,
But someone will think I am beautiful.

It seems just like yesterday we were just starting high school. And now it's almost over. We've been tight all the way through unlike some friends who faded away throughout the years. They say these are the best years, but high school is just the interlude to life.

*Your one and only sister,
Candice*

Just look at you. You're such a young lady now. Always remember this story—the bumble can fly, but it does not scientifically suppose to. The Wings are too light for the body; it is not Aerodynamically designed to fly, but it flies Anyway. So go for it, be all you can. Let nothing Limit you in your endeavors. You can do all things Through Christ who strengthens you.

WHY CHOOSE MACON STATE COLLEGE?

QUALITY

Macon State prepares you to compete in a technologically advanced global economy while helping you develop important life skills and a firm foundation in the liberal arts. The College's bachelor of science degrees include business, communications, health information management, health services administration, information technology, nursing (RN-to-BSN completion program) and public service.

As a complement to its baccalaureate mission, Macon State offers transfer and career programs of recognized quality in more than 30 areas of study and serves as a point of access to the University System of Georgia. Macon State College credit is transferable to Georgia's other public colleges and universities as well as to accredited institutions throughout the nation.

MSC graduates have a proven track record of success, in the workforce and when furthering their education. After transferring to residential colleges and universities, their grade point averages tend to increase, a clear indication of Macon State's high academic standards. Macon State faculty members are dedicated to student success. They work closely with students, helping them select courses and establish educational and career goals. The student to faculty ratio at Macon State is 22:1.

CONVENIENCE

You will find a dynamic learning environment at Macon State College. Day and evening classes for full- and part-time students are available at three convenient locations: the 167-acre Macon campus, the Warner Robins Campus and the Robins Resident Center on Robins AFB. The Macon campus is near a variety of housing choices, some within walking distance of the campus. The MSC Office of Student Life (478-471-2710) maintains a list of these housing options.

Macon State continues to expand online course offerings so students can pursue their degrees anytime, anywhere. And, to give students greater flexibility in planning class schedules, the College offers an alternative to the regular 15-week semester: two shorter sessions each term.

AFFORDABLE TUITION

Because Macon State College is part of the University System of Georgia, tuition here is affordable. In-state tuition and fees for beginning freshmen run from \$237 for part-time study to about \$800 for full-time study per semester. The Financial Aid Office is committed to helping qualified students find scholarships and grants, including the Georgia HOPE Scholarship, Federal Student Aid Programs and MSC Foundation scholarships.

STUDENT LIFE

Macon State students enjoy the complete college experience through co-curricular activities and services designed to promote campus spirit and community service. Students develop their leadership potential, enjoy social and recreational programs, and attend or participate in cultural events such as plays, concerts and lectures. Student Life at the College supports more than 25 student organizations and publications, intramural sports, a health clinic, a wellness program and job fairs, as well as academic, personal and career counseling.

Soccer ROCKS!

Boys' Soccer

The soccer team did well under the circumstances they faced this year. We had two new coaches and very few returning players, so this year was centered around building a foundation for our soccer program. Through the

leadership of our senior captains, we kept up our intensity and spirit and continually developed and grew all season long. With only a few players graduating or leaving, we are looking for a strong season next year.

The girls track team had a successful season this year, winning its second track meet in school history. The track team was composed of a young group of girls that worked hard and had fun. Coach Lauzon and Coach Cater said, "If we can keep this group of girls together we will have a very strong team for next year." At the city track meet, Sandi Brown won the 100m and long jump. Nikia Trice won the shot put, Auntie Bakon won the 800m. Sandi Brown for long jump and Nikia Trice for discus were state qualifiers. Sandi finished in ninth with a jump of seventeen feet and Nikia finished eleventh with a throw of 89.9 feet.

PLAY BALL!

A Walk in the Park

Disregarding the unusual baking spring time sun, the unpredictable rain, and the overwhelming pollen, the Westside High School Varsity baseball team aimed toward another successful season. Popping flies, fielding grounders, and knocking home runs was commonplace for the Seminoles.

Safe!

Showing steadfast bravery, the Westside Seminoles took their chances between plays.

Going, Going.....Nope!
Thought to be a goner, Michael Harris stopped this home run just over the fence.

Hail to the Chief!
Coach Daniell used great coaching skills to lead the Varsity baseball boys to many victories this season.

Batter Up!
Preparing for a great hit, Taylor Griffith gets ready to haul off to first base. Making precise contact with a speeding fastball was quite the task.
